DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 622

[Docket No. ; I.D.]

RIN 0648-AT75

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic;

Snapper-Grouper Fishery off the Southern Atlantic States;

Amendment 13C

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS issues this proposed rule to implement Amendment 13C to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP), as prepared and submitted by the South Atlantic Fishery Management Council (Council). Amendment 13C proposes management measures to address overfishing of snowy grouper, golden tilefish, vermilion snapper, and black sea bass and measures to allow moderate increases in recreational and commercial harvest of red porgy consistent with the rebuilding program for that stock.

For the commercial fisheries, this proposed rule would establish restrictive quotas for snowy grouper, golden tilefish, vermilion snapper and black sea bass and, after the quotas are met, prohibit all purchase and sale of the applicable species and restrict all harvest and possession to the applicable bag limit; establish restrictive trip limits for snowy grouper and golden tilefish; require at least 2-inch (5.1-cm) mesh in the back panel of black sea bass pots; require black sea bass pots to be removed from the water after the quota is reached; change the fishing year for black sea bass; increase the trip limit for red porgy; establish a red porgy quota that would allow a moderate increase in harvest; and, after the red porgy quota is reached, prohibit all purchase and sale and restrict all harvest and possession to the bag limit.
